

Site Assessment Surveys

This simple yet feature-packed tool is used to inspect and grade your facilities while also providing a score so your managers can see when improvements are made.

Just a few of the critical areas the tool covers are:

- Patient Access
- Fire Safety
- Exits – Entries
- Medication Management
- Living Areas
- Required Posting
- Much More...

You control what needs to be checked and how often. Inspection reports are automatically routed to appropriate staff for follow-up.

If you are using CARF or Joint Commission this tool is a true lifesaver!
